

VISION PANELS

With the Controllaview Vision Panel being pre-glazed and fully assembled – the installation of panels into existing or pre-finished doors is a time-efficient and simple process. Controllaview Vision Panels are also an effective means of satisfying a broad range of safety requirements.

Our Vision Panels are stocked in a wide range of sizes in natural anodised finish. Custom sizes & powder-coat colours are made to order and panels can be manufactured to suit almost any application.

The standard single glazed Vision Panels are all made with 6.38mm laminate.

Custom panels can accommodate any glass up to 6.5mm to fit into this framing. If you require a thicker glass for acoustic or security, please contact our team to find a solution that will best suit.

Standard Vision Panels will suit doors from 32-45mm in thickness.

Double Glaze Vision Panels also available.

Width & Height	Cut Out Size
300 x 200*	300 x 200
400 x 400	400 x 400
600 x 200*	600 x 200
600 x 300*	600 x 300
600 x 600*	600 x 600
900 x 200	900 x 200
900 x 600	900 x 600
1700 x 200	1700 x 200

Anodise or powdercoat finishes available. Special sizes on request.
* Stocked in Perth - Clear Anodised

INSTALLATION GUIDE

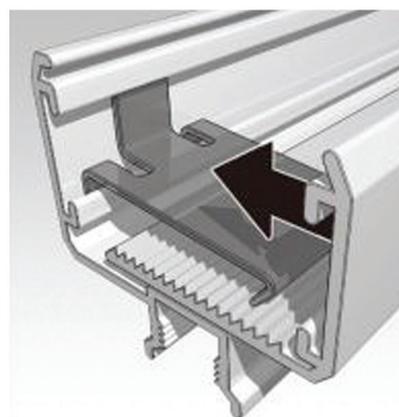

STEP ONE:
Insert main centre leg
into upper channel

STEP TWO:
Insert one small leg down
into lower channel

STEP THREE:
Lift and insert second
small leg down into
lower channel

STEP FOUR:
Place front frame into
opening and press back
frame into position from
opposite side of the door

NOTE:

To assist with shock absorption it is recommended adhesive sealant be applied between vision panel and door surface on installation.
