# Invisible Rubber

Create cleaner lines  
by concealing  
unsightly rubber

Our customisable aluminium covers  
hide the rubber and offer a  
long-lasting, unique aesthetic.

Seamless rubber-free look

Durable design with minimal upkeep

Subtle feature with a big impact

# Hinges

Complete your look with QRK's single and two tone aluminium hinges from McCallum.

McCallum Aluminium Hinges are highly regarded as the premium aluminium hinge in Australia, QRK can take this a step further by finishing them in the latest powder coat, anodised, woodgrain, stone, concrete, rust and lished finishes including two tone for contrasting doors and door frames allowing your hinges to blend seamlessly into your QRK Framing.

## QRK Hinges

and your desired finish / finishes (nominate door and frame finishes for two tone), door and frame material.

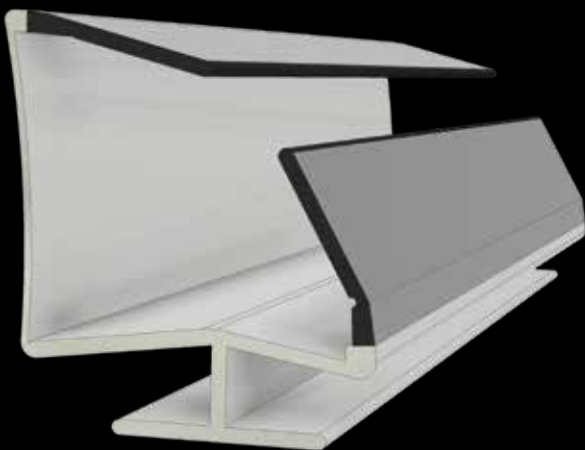

# Acoustic Seals

QRK has developed an Acoustic Seal designed to provide optimal acoustic performance whilst blending seamlessly into the door stops and framing.

QRK's Acoustic Seal is an easy to install and cost-effective door seal without compromising on performance.

RW 33 (please refer to QRK SYS Acoustic Rating Table)
