

YALE UNITY SECURITY SCREEN DOOR LOCK

The Unity Security Screen Door Lock provides seamless entry into your home.

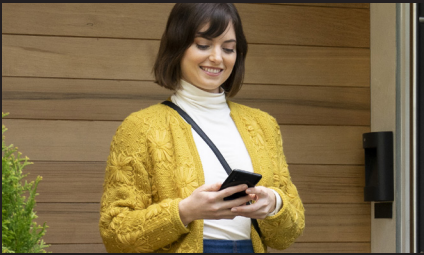

- Lock & Unlock your door via your smart device.
- Grant access to others for one time access or for a set period of time or date range.
- Keep track of visitor access.

COMSUPPLY

The Yale Unity Security Screen Door Lock has been designed specifically for the Australian Market, achieving digital deadlocking in a slim and contemporary profile.

Meeting Australian lock standards AS4145.2:2008, SL6 and D7, you can be sure that it's reliable and secure.

Grant entry from wherever with the Yale Access App

Remote access means that your customers can let in family, friends and trusted visitors like the cleaner or dog walker– from anywhere – when a Yale Smart Lock is paired with the Yale Connect Bridge. If someone forgets to lock when they leave, it can be taken care of with the tap of a finger.

Auto-lock and unlock when coming and going

The auto-lock feature can automatically lock the door upon leaving, either immediately after closing or after a set amount of time via the Yale Access App. When returning, the door will auto-unlock using geo-fencing technology, so there is no need to fumble around with keys.

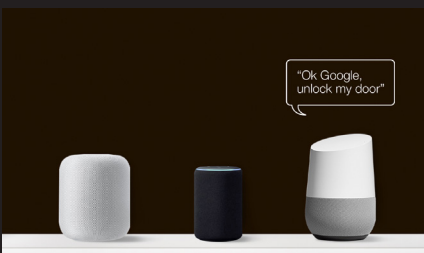

Know the ins and outs of the home

The 24/7 activity feed will help check who is coming and when – even when nobody is there. Know when guests have arrived, what time children got home, and whether a tradesmen or cleaner was in to get the job done

Expecting guests? Send a virtual key

Send virtual keys to friends or family via the Yale Access App. Guests can come and go as they wish – without the worry of lost keys.

Use your voice to control your lock

Yale Access works with Amazon Alexa, Apple HomeKit and Google Home. The lock is voice controllable using Alexa or Google Assistant.

Yale Connect Bridge

Allows you to access your lock from wherever you are.

Yale Connect Bridge allows you to access your lock from wherever you are. Allowing you to lock and unlock, change PIN codes and lock settings remotely. Giving you total control over your lock, via the Yale Access app, you are able to lock and unlock your door, grant access to others and keep track of visitor access. Integrating the bridge into your home automation system, users have the ability to create scenes such as turn your lights on when your door unlocks.

The Yale Connect Bridge enables voice assistant and 'Works with' ability, integrating into your Google, Samsung or Alexa smart home devices.

Yale Connect Plus Wi-Fi Bridge

Similar to the Yale Connect Bridge above plus additional features;

Can support up to 16 Yale Access smart devices throughout your home, the Yale Connect Plus Wi-Fi Bridge keeps your devices connected and power points free.

Expand the capabilities of your Yale Home by enabling new features including DualDoor™ Technology**

** DualDoor™ Technology requires pairing the Unity Security Screen Door and Unity Entrance Locks with Yale Connect Plus or two Yale Connect Bridges (one per lock) to operate.
